Doctors On Mission International

2024

ANNUAL REPORT

www.doctorsonmissionint.org

Who we are!

Doctors on Mission International

Doctors on Mission international is a volunteer based non-for-profit fully registered organization uniting like-minded Christian medical teams with the aim of serving humanity with freely accessible, acceptable and reliable medical and surgical; needs to reduce the burden on medical care on the community while serving God and bringing healing to communities.

About Us

Founded in 2023, Doctor's on mission international unites like-minded Christian medical teams to provide medical care to low limited setting communities while serving God and bringing healing to communities through medical & Surgical missions, satellite health facilities, emergency humanitarian relief, nutritional rehabilitations, surgical care and medical training.

About us!

Our Vision

Uniting Christian medical teams with skills & training to provide free quality, accessible and acceptable medical care to vulnerable communities with lifesaving healthcare.

Our Mission

To enable free access to universal healthcare to all communities while bringing healing to communities and bridging the gap to healthcare needs.

Our Values

- Faith
- Love
- Voluntarism
- Integrity
- Team work
- Result oriented

Communication from the

Team Lead

Mulyamboga Paul, MD

On Behalf of the whole team at Doctors on Mission International, I would wish to express my deepest gratitude for your unwavering support and trust in the work we do throughout 2024.

Your selfless generosity has played a key role in enabling us to reach the most vulnerable communities with much needed medical care, surgical care, nutritional support for children, training and humanitarian relief.

Through your support, we managed to hold significant strides in 2024. We managed to reach out to rural communities in south western and eastern Uganda.

Regardless of these successes, we remain immensely aware of the gross need for comprehensive medical & surgical needs for several remote communities in Uganda. We believe that your support will continue to play a key role in enabling us to reach more communities with our tailor-made interventions.

As we enter 2025, our focus will mostly be on expanding our medical & surgical missions'

programs in different parts of the country, launching satellite health facilities in eastern Uganda, Northern Uganda, central Uganda and in South-western Uganda. We also aim at growing our volunteers for Africa medical missions where we welcome volunteers from across the world to volunteer in Uganda Hospitals as they learn and give back to community. We hope to draw more Ugandan medical professionals to participate in community projects and works.

As we launch our Nutritional rehabilitation program, we hope to reach out to more than 10 districts through tailor-made nutritional rehabilitation programs, and building sustainable community interventions for the districts involved.

We also hope to organize 3 eye surgical missions across the country in partnership with both local and international partners and friends.

I would love to extend our heart felt appreciation to all volunteers, medical professionals, partners, and the hospitals who have played a key role in our existence and the work we do for the community. May the Lord bless everything you do and may He increase and reward you abundantly.

This report shows a detailed overview of our achievements in the past year, challenges we faced, and recommendations for this year. I hope you can be proud of this amazing work that you have contributed to.

"Also, I heard the voice of the Lord, saying: "Whom shall I send, and who will go for Us?" Then I said, "Here am I! Send me." Isaiah 6:8

Team Lead,

Doctors on Mission International.

Overview

Doctors on Mission managed to organize four major medical & surgical camps:

1. Rurama medical mission
2. Kibuku medical mission
3. Mbarara Medical mission
4. Paediatric surgical camp at Holy Innocents Children's Hospital in Mbarara.

Rurama medical mission, Mitooma District

The camp managed to see 418 patients who accessed free dental care, eye care, laboratory services, circumcision and general medical care, consultations and medical education to the community.

Kibuku Medical mission, Kibuku district

The camp managed to see 650 patients with free eye care, dental care, paediatric care, pharmacy, general medical and surgical care. We managed to book 208 patients for surgical care.

We trust God to have these patients operated upon this year at Kibuku Health

center IV in Kibuku district and some in Mbale Regional referral hospital.

Mbarara Medical Mission

This was in partnership with Watoto Church, Mbarara

The camp managed to reach out to 250 patients with free consultations from medical specialists, surgical specialists, radiology car, ophthalmology care, paediatric consultations and general medical care. Patients were amazed at the level of generosity and care given to them during the camp.

Paediatric surgical camp at Holy Innocents Children's Hospitals

This was in partnership with Children's Surgery International, USA. We managed to operate upon 208 patients with general paediatric general surgery, urology and ENT complications at the children's Hospital. The 1-week camp was a major success of the hospital with over 200 children given free surgical care.

Key achievements

In figures!

208

Paediatric surgical operations in 1 week at a Holy Innocent's Children's Hospital

4

Completed major medical/ Surgical camps

1526

Patients received free surgical & medical care in the communities in Uganda

5

Major districts with other 5 surrounding districts benefitted from the camp.

Paediatric surgical camp at Holy Innocents Children's Hospitals in partnership with Children's Surgery International, USA

Procedures done

Paediatric general surgery

Hernias, hydroceles, and masses

Paediatric Urology

Undescended testis, Hypospadias

Paediatric ENT

Masses, Cleft lip & palate, adenotonsillectomies

Beneficiary districts

Mbarara, Isingiro, Mitooma, Kabale, Ntungamo, Rwampara, Bushenyi, Sheema, Fort portal, Masaka, Kasese, Ssembabule, Rakai

Surgeries done

208

Duration

1 week

Outcomes

- Pre- and post- Op care for the patients booked
- Investigations were all done for free
- Operations done for free

Challenges

- Limited resources
- Large numbers of children for operation
- Limited duration of the camp
